Kevin Alexander Martínez Rivas

Junior Data Engineer | Fullstack Development
San Salvador, El Salvador | kevmartinez.per@gmail.com | linkedin.com/in/kevin-martinez-dev

PROFESSIONAL SUMMARY

Data Engineer with 3 years of experience in data integration, dimensional modeling and Business Intelligence. I design ETL processes, OLAP cubes and semantic layers that support dashboards with consistent metrics. I complement this profile with fullstack web development and AI-driven automation.

PROFESSIONAL EXPERIENCE

Junior Data Engineer — Datasphere Consulting (full time, remote) Oct 2023 – Present
San Salvador, El Salvador

- Designed and optimized ETL processes for data integration and analysis across multiple platforms.
- Implemented OLAP cubes to speed up analysis and report generation.
- Designed and implemented a company-wide semantic layer (dimensional model, relationships, granularity and centralized business logic) as the foundation of its dashboard ecosystem.
- Developed DAX measures and Power BI dashboards focused on business decision-making.
- Contributed to early Snowflake projects, supporting cloud data management and analytics workflows.
- Worked with SQL Server, PostgreSQL and MySQL for database management.
- Collaborated on Python projects for backend development and task automation.
- Built web applications with React, PHP and Laravel, delivering advanced end-user functionality.
- Integrated AI-assisted workflows (Claude Code, MCPs, Skills) into web and data analysis projects.

SELECTED PROJECTS

AI-Agent Lead Management System

- Took part in the design and construction of a lead management system.
- Designed and implemented AI agents that automate lead traceability across its full lifecycle, reducing manual follow-up.

QA of AI-Built Platforms

- Performed end-to-end testing of AI-developed platforms, validating both frontend and backend.
- Specialized in data validation and handling: integrity, consistency and quality of the information the systems processed and returned.

EDUCATION

B.S. in Computer Science — Universidad Don Bosco Jan 2025 – Nov 2027 (in progress)

Technical Degree in Computer Engineering — Universidad Don Bosco Feb 2020 – Nov 2023
Graduated with outstanding CUM (cumulative GPA).

General High School Diploma — Colegio Jardín 2017 – 2018
Recognized as an outstanding student on the PAES national exam.

TECHNICAL SKILLS

- **Data & BI:** ETL, OLAP cubes, dimensional modeling, semantic layer, Power BI, DAX, Snowflake
- **Databases:** SQL Server, PostgreSQL, MySQL
- **Languages:** Python, SQL, JavaScript, PHP, C#
- **Web development:** React, Laravel, HTML, CSS, SASS, Bootstrap, Gulp
- **AI:** Claude Code, MCPs, Skills, Rules, Prompt Engineering, AI agents, QA of AI-generated platforms
